SUMMARY OF DIRECT CHARITABLE ACTIVITIES	FORM 990-PF, PART IX-A	<p>Grant Expenditure Evaluations - Consistent with its commitment to developing grantee organizational capacity and promoting the use of best practices in the field, the Knight Foundation performed several Grant Expenditure Evaluations on our grantees. These Evaluations are performed by outside consultants who examine the grantee's administrative operations, internal controls and programmatic activities by following a sample of grant expenditures through the grantee's expenditure cycle. The foundation provides the grantee with a report detailing the consultant's observations and recommendation for improvements.</p> <p>Knight Commission on Intercollegiate Athletics - In 2007 The Knight Commission on Intercollegiate Athletics convened college presidents, faculty, administrators, coaches, college athletes, scholars, and other stakeholders during the year to conduct fact-finding on academic and fiscal reforms and other issues impacting college athletics. The Knight Commission's meetings were open to the public and accessible via podcasts. The Commission also disseminated research on faculty attitudes about college sports and its governance. The resulting media coverage of the meetings and research continued to document and inform the NCAA's efforts as well as efforts on each individual campus to ensure that 1)college presidents are fully in charge of their sports programs, 2)faculty are engaged in preserving academic integrity, 3)progress is being made to implement a program requiring minimum graduation rates to be achieved, with penalties for noncompliance, and 4)fiscal reforms to collect more accurate and comparable financial data are proceeding.</p> <p>Technical Assistance - As part of our commitment to our grantees, Knight Foundation offers technical assistance to help these organizations pursue their missions successfully. Providing this support is congruent with Knight's strategic plan assertion of partnership with our grantees and communities. Knight Foundation established the Technical Assistance Network in 2004 to be a strategic deployment of payo ut dollars to assist current and potential grantees in various areas of program operation and capacity development. It provides grantees with the opportunity to gain valuable information and assistance that they otherwise may not be able to access. Because technical assistance aims to build organizational capacity in one or more areas, its provision not only increases the likelihood of successful grants, but also successful organizations.</p> <p>Community Survey - In order to provide our 26 communities with an opportunity to express their perception of the foundation and improve Knight's responsiveness to the community, the foundation contracted with an external polling firm to interview leaders in all 26 communities. The findings of the survey allow the communities to share their views on the relationship with the foundation and describe ways to make it more effective. The survey results will be shared with the community leaders and foundation staff.</p>
